JagTrack	Version: 1.0
Glossary	Date: 19/Mar/2012

Word/Phrase (Synonym)	Definition
Boarding JagTran	This term refers to the use case name: Boarding JagTran. This term also refers to one of the features of the JagTrack application.
Bus (Tram)	A vehicle that carries students and runs for the JagTran
Bus Load	This term refers to the use case named Bus Load. This term also refers to the current number of passengers on the bus.
Driver	Individual in charge of driving the bus
JagCard	The student ID card each student gets. Can be used for identification purposes.
JagNumber	The nine digit number each student is assigned, can be used for identification purposes.
JagTrack	Project/system under development
JagTran	Public Transportation System for the University of South Alabama
Line	A preset route that buses travel along. Identified by color.
Load Balancing	This term refers to a feature of the JagTran application, changing bus schedules to accommodate passenger load
Passenger	An individual riding on the JagTran. Not necessarily using JagTrack (thus not a User per se).
QAP	Quality Assurance Plan
ReMP	Requirements Management Plan
RMP	Risk Management Plan
Route	A predetermined path that the JagTran bus travels along between stops, each line has a route
SDP	Software Development Plan
SRP	Software Requirements Plan
SRS	Software Requirements Specification
Stop	A predetermined area along a route (or line) where the JagTran stops to pick up/drop off passengers
USA	University of South Alabama
User	This term refers to the person who uses the JagTrack application. It does not necessarily mean the passenger.
