

# **TWO Brief Use Cases**

**Name: Weijian Jian**

**ID: J00449859**

**Date: 03/3/2012**

## UC 1 :

A user want to Inquire routes from the user's current location to the user's destination. first of all, he confirms where he is now and where he want to go, then asks system for available routes. After waiting some time, he can receive the response and get the route from his current location to the destination

### Inquire routes (JagTran)

confirm  
location

ask systems

wating for  
response

receive  
response

## UC 2 :

A user want to Inquire the number of buses currently running on a specific line. first of all, he confirms which specifit line he chooses, then asks system for the number of buses currently running on the line. After waiting some time, he can rececive the resopnse and get the information about the number of buses running on this specific line.
